Inspired by architecture Eave Modular Sofa takes its name from “eaves” – the lower edges of the roof that overhang a wall. The sofa's distinctive detail is its internal “eaves” – curved upholstered armrests that lend the sofa its expressive character. A perfect blend of style and comfort, Eave is a generous sofa that will encourage owners to relax. The seating angle is also ideal for offices or public spaces, enabling the user to sit actively engaging with work. Figure out your own configuration to suit your space.

## About the Designer

Norm Architects was founded in 2008 by Kasper Rønn and Jonas Bjerre-Poulsen, later joined by Linda Korndal. Based in the heart of Copenhagen, the award-winning studio works in the fields of industrial design, residential architecture, commercial interiors, photography and art direction. Located on one of the city's oldest streets, the practice takes pride in respecting its context, building on the traditions of Scandinavian design, of timeless aesthetics and natural materials.
