# RUDOLPH
## Vincent Van Duysen

**SERAX**

After successful collaborations on tableware and outdoor furniture, Serax and Vincent Van Duysen join forces again to create a sofa collection representing the DNA of both institutions. "I thought it would be a nice idea if we could translate a custom-made product I very often produce in my projects into an edition piece. That's how this collection started to take shape."

The name Rudolph was derived from Rudolph Michael Schindler, a major protagonist of mid-century American modernism. "I admire him a lot. The Mid-century style is very inspirational for my work; think of the typical built in banquettes lining modern interiors. But the most significant inspiration for this collection was the sofa I have in my home in Portugal because of its proportions, lines, and the serenity you feel when looking at it or sitting on it."

### VINCENT VAN DUYSEN

Vincent Van Duysen (1962) is one of Belgium's most acclaimed architects, interior designers, and product designers. After studying architecture at Sint-Lucas in Ghent, he gained a few years' experience with major players such as Aldo Civuc and Jean de Meulder. In 1990, he launched his own studio in Antwerp, where today, a team of more than 20 architects and designers helps to promote his vision. A vision that stems from an unbridled curiosity, focussing on the creation of an all- embracing atmosphere. Environment, architecture, interior, and design objects, everything is completely intertwined. His style builds on purism and a sophisticated use of materials. Timeless designs, reduced to their very essence. Respecting tradition, he translates antique and vintage art and architecture into the design language we understand today. The emphasis is always on aesthetics, comfort and convenience. His designs steer clear of trends. They never clamour for attention, they simply stand out naturally for their simplicity and tranquillity. This is not only reflected in his designs for international companies such as B&B Italia, Poliform, Molteni&C, Paola Lenti but also in his collections for Serax.

Rudolph - **Soft Seating & Side Tables**

The Rudolph sofa comes in a freestanding version, in a two to three-seater size, and single-seaters, with side tables in wood and marble tops. The freestanding side and centre tables complete the collection. All fabrics selected for this collection are custom made in Belgium and come in off white, beige, sand, smoke and bone colour schemes. "I chose to work with solid black or cognac tinted wood and marble for their texture, warmth, and tactility. "

---

## MATERIALS

**Material Frame:** The aluminum frame is covered by solid oak wood.
Beware, wood is a natural material that can change over time.
The aluminum frame is composed of white sangles which contains
cotton that brings a more natural look and feel.

**Material Cushions:** Cushion Filling: Hybrid foam.
Hybrid foam has better breathable properties, a better resilience and
its production is more environmentally friendly without CFK's.

Rudolph - **Deco Cushions**

For the Rudolph deco cushions Vincent Van Duysen chose beautiful fabrics, with sophisticated stripes or simply plain, easy to blend in any interior. The fabric for the deco indoor cushions is produced by a Belgian weaving mill with a long-standing history.
