

# STRAND PENDANT LAMP – EU VERSION

**BENJAMIN HUBERT ON THE DESIGN** “The Strand Pendant Lamp is formed from a sprayed cocoon material with its cloud-like appearance that tightly clings to a spinning steel frame. It consists of tiny strands for a complex, intriguing structure that shrouds the light source while acting as its diffuser. With its see-through expression, the cocoon material allows for the Strand Pendant Lamp to filter light for a warm, comfortable glow. Designed in various sizes and shapes, the Strand Pendant Lamp hovers lightly in space, bringing comfort, harmony and a refined sensitivity into any room.”
