

TAP

It has three moulded legs and a round wooden seat. It can be used as extra seating and is easily stackable. We all know it well; the archetypal three-legged stool. Nearly everyone has had a variation of it in their home at some point in their lives but often its design is taken for granted. Precisely the rethinking of something as simple as a stool was the starting point for Normann Copenhagen's Tap Stool.

Tap

DESCRIPTION

Tap is a different, yet familiar stackable stool. The stool surprises you with its unexpectedly comfortable seat made from molded foam with a flexible, sealed surface. The three legs are smoothly integrated into the seat. This gives Tap the appearance of a unified whole, even when seen from the side.

DESIGN

Simon Legald, 2014

MATERIAL

Seat: PU Foam

Legs: Oak Veneer / Walnut Veneer / Painted and Lacquered Oak

CONSTRUCTION

The seat of the Tap stool is made of a hard PU foam with a closed cell structure for durability and easy maintenance. The Tap stool comes flat packed. Assembly manual included.
