

PALISSADE COLLECTION

HOT GALVANISED

DESIGN BY RONAN & ERWAN BOUROULLEC

Designed by French brothers Ronan and Erwan Bouroullec, the range of hot-dip galvanised Palissade chairs, benches and stools were developed to supplement the existing Palissade collection of outdoor furniture. United by a common principle of symmetrical geometry, the collection is engineered to reproduce the same visual simplicity and core strength throughout. Designed in colour and form to integrate effortlessly into a natural landscape or urban setting,

Palissade is intended to be used over a longer period of time and become more beautiful over the years. The furniture's longevity is greatly

extended by the hot dip galvanisation process, where the steel frames are dipped in molten zinc, forming a resilient coating over the entire steel surface, protecting against corrosion and offering a maintenance-free finish. The collection is particularly suited for outdoor cafés and restaurants, public gardens or urban spaces.
