Piero Lissoni

Description

Le nouveau système d'éléments rembourrés de Piero Lissoni se définit comme le point d'ancrage sécurisant de l'espace domestique. Il s'agit d'un système multiple et totalement flexible grâce aux innombrables combinaisons proposées grâce aux 84 éléments de la collection. La structure portante est la plateforme autour de laquelle Dock prend forme. La force de la matière souligne de manière affirmée la vocation horizontale de ce système éclectique. Elle devient un élément dynamique, car elle s'allonge sur les côtés pour former un plan d'appui. L'accoudoir, mince, proposant deux profondeurs, et le dossier sont rembourrés généreusement. Les coussins jouent aussi avec les dimensions et les proportions, rendant possible la création de compositions à deux facettes, angulaires, chaises longues, avec ou sans dossier, adaptées à l'utilisation en îlot mais également à des solutions plus traditionnelles. Mais Dock se développe également à la verticale et est doté d'accessoires permettant qui de créer un panorama varié. En effet, il est possible d'insérer des éléments supplémentaires, comme des accoudoirs rembourrés confortables entre les coussins de l'assise, ou des éléments de service élancées, sur la structure portante. Ces

éléments d'appui pour le corps et pour les objets sont en mesure d'offrir des choix supplémentaires, avec un rythme visuel qui offre d'autres possibilités de vivre et concevoir le système. Les coussins accoudoirs et les coussins de sièges présentent d'élégantes surpiqûres en ton sur ton. Outre la gamme de revêtements classique de B&B Italia en tissu et en cuir, deux nouveaux tissus ont été étudiés exclusivement pour Dock mettant en focus la matière. Le confort des rembourrages moelleux, comme un port accueillant est accentué par le choix proposé des profondeurs et des hauteurs. En effet, les trois profondeurs peuvent être associées avec une hauteur d'assise de 41 centimètres, mais il est également possible de choisir une version à 27 centimètres, pratiquement à ras du sol, pour s'installer à l'orientale. Après avoir passé un peu de temps assis sur Dock, vous pourrez lever l'ancre, reposés et revigorés.

Technical information

Châssis intérieur assise (base revêtue)

tubes et profilés d'acier, panneau en bois multicouche, housse en fibre de polyester

Châssis intérieur assise (base bois)

tubes et profilés d'acier, panneau en bois multicouche plaqué, bois massif

Châssis intérieur dossier et accoudoir

tubes et profilés d'acier

Rembourrage coussin assise

polyuréthane profilé à densité différenciée, plume stérilisée, housse en fibre de polyester

Rembourrage coussin dossier

plume stérilisée, housse en fibre de polyester

Plateau

panneau en fibre de bois MDF plaqué

Bouchon

acier

Pieds

matériel thermoplastique

Support accoudoir (DA31B)

aluminium et acier

Plateau accoudoir (DA31B)

bois massif, polyuréthane profilé à densité différenciée, housse en fibre de polyester

Support élément de service

acier

Plateau élément de service

bois massif ou verre

Embouts

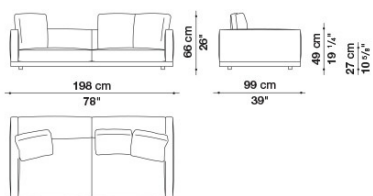

matériel plastique

Revêtement

tissu (profil cannetè) ou cuir
